Application and Certification in lieu of Inspection for Condominiums and One & Two Family Dwellings

Certificate of Smoke Alarm, Carbon Monoxide Alarm and Portable Fire Extinguisher

Note: All applicable boxes must be checked in order for Certification to be valid.

- Smoke alarms are on each level of the dwelling, including basements, excluding unfinished attics or crawl spaces; and
- Smoke alarms are outside each separate sleeping area; and
- Smoke alarms are located within 10 feet of each separate sleeping area; and
- All battery operated smoke alarms are 10 year sealed battery type alarms; and
- Carbon monoxide alarms are outside of each separate sleeping area; and
- All smoke alarms and carbon monoxide alarms are in working order and are less than 10 years old.
- One new 2A:10B:C Portable Fire Extinguisher is installed in a visible location within the kitchen.

This is a _____ story dwelling with or without a basement.

An inspection shall be conducted by the owner or an authorized representative of the owner. **Note: AC powered and/or interconnected smoke or carbon monoxide alarms shall be maintained in working order and less than 10 years old.**

Please email certificate to: housingdivision@plainsboronj.com

Also Attached: Oil or gas furnaces certified safe for use by a heating professional (HVACR Certified).

Fireplace and/or wood burning stoves, if more than 3 years old, must be certified safe for use by a chimney sweep certified by the National Chimney Sweep Guild.
